

European Commission

Enterprise Directorate-General

Sustainable development and the EU non-energy extractive industry

Paul Anciaux

EUROPEAN COMMISSION

DG Enterprise and Industry - Unit I2

Steel, non-ferrous metals,
non-energy extractive industry

**Screening meeting Croatia and Turkey -
Chapter 20 - Brussels, 28 March 2006**

Sustainable development

- Sustainable development: “development that meets the needs of today’s generations without compromising the ability of future generations to meet their needs”
- 3 pillars: economic, environmental, social

Communication (2000) 265 Promoting sustainable development in the EU non-energy extractive industry

- ❑ Sets broad policy lines for promoting SD by reconciling the need for more secure and less polluting extractive activities while maintaining the competitiveness of the industry
- ❑ Evaluation of COM (2000)265 to be completed by early April

Ongoing policy actions

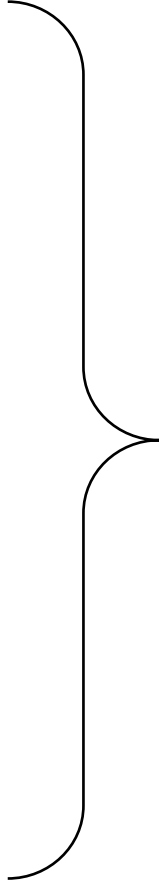

Commission Communication (2005) 474 and Staff Working Document SEC (2005) 1216

- ❑ In-depth assessment of competitiveness: to be completed by mid 2006
- ❑ High-Level Group on Competitiveness, Energy and Environment

Priority areas

1. Environment
2. Competitiveness
3. Social performance and employment
4. Research and Technological Development
5. Enlargement

Stakeholder
dialogue

(1) Environment: new legislative initiatives

- Directive 2003/105/EC amending the Seveso II Directive (96/82/EC)
- Directive 2006/21/EC on the management of waste from extractive industries
- BAT document for management of tailings and waste rock in mining activities:

<http://eippcb.jrc.es/>

(1) Environment: voluntary actions

- ❑ Environmental management systems
- ❑ Environmental reporting
- ❑ Example of the EU Sustainable Development Indicators:
<http://europa.eu.int/comm/enterprise/steel/non-energy-extractive-industry/sd-indicators.htm>

(2) Competitiveness

- ❑ Access to land has been identified as a major issue
- ❑ Study the design and functioning of administrative procedures in the MS, in order to encourage exchange of information and to identify best practices
- Minerals Planning and Policies study (2004):
<http://europa.eu.int/comm/enterprise/steel/index.htm>

(3) Social performance and employment

- ❑ Further improve industry's performance in the field of health and safety
- ❑ Ensure the future supply of a sufficiently skilled and educated workforce

(4) Research and Technological Development

- Develop a common European platform for coordinating and disseminating results, and for identifying areas for future research
 - NESMI network under FP5 (2001-2005):
<http://www.nesmi.net>
 - European Technology Platform on Sustainable Mineral Resources

(5) Enlargement

- ❑ Enhance the competitiveness of the sector in candidate countries
- ❑ Improve the social and environmental performance of the sector in candidate countries

(5) Enlargement

- ❑ Assist new Member States and candidate countries in the implementation of the acquis and informing them about our industrial policies
 - TAIEX-sponsored workshops: <http://taieux.cec.eu.int>
- ❑ Development of an inventory of existing “hot spots” in the candidate countries
 - Pecomines: http://viso.ei.jrc.it/pecomines_ext/index.html

Stakeholder dialogue

- Dialogue on all priority issues has been strengthened and intensified
- Example of the Raw Materials Supply Group
